Authorization for this examiner's amendment was given in a telephone interview with Ms. Victoria A. Sandberg (Reg. No. 41,287) on 03 March 2005.

The application has been amended as follows:

IN THE SPECIFICATION:

The paragraph beginning on line 10 of page 56 was replaced with the following amended paragraph to correct the obvious typographical error of omission from that in a prior version:

-- Under the terms of the Budapest Treaty on the International Recognition of the Deposit of Microorganisms for the Purpose of Patent Procedure, deposit of hybridoma KKO was made on July 30, 2004 with the American Type Culture Collection (ATCC) of 10801 University Blvd., Manassas, Virginia, 20110-2209 USA, and given ATCC patent deposit designation number PTA-6133. The assignee, Science & Technology Corporation @ UNM, represents that the ATCC is a depository afforded permanence of the deposit and ready accessibility thereto by the public if a patent is granted. All restrictions on the availability to the public of the material so deposited will be irrevocably removed upon granting of a patent. The material will be readily

available during the pendency of the patent application to one determined by the Commissioner to be entitled thereto under 37 C.F.R. § 1.14 and 35 U.S.C. § 122. The deposited material will be maintained with all the care necessary to keep it viable and uncontaminated for a period of at least five years after the most recent request for the furnishing of a sample of the deposited material, and in any case, for a period of at least thirty (30) years after the date of the deposit or for the enforceable life of the patent, whichever period is longer. Applicant's assignee acknowledges its duty to replace the deposit should the depository be unable to furnish a sample when requested due to the condition of the deposit. --
